The Journal of THORACIC AND CARDIOVASCULAR SURGERY

Official organ, The American Association for Thoracic Surgery

Editor BRIAN BLADES, *Washington, D. C.*

Associate editors THOMAS H. BURFORD, *St. Louis*
PAUL ADKINS, *Washington, D. C.*

Advisory editorial board WILLIAM E. ADAMS, *Chicago*
EDWARD J. BEATTIE, JR., *New York*
WILFRED G. BIGELOW, *Toronto*
EDWARD D. CHURCHILL, *Boston*
O. THERON CLAGETT, *Rochester, Minn.*
ANTHONY R. CURRERI, *Madison*
DONALD B. EFFLER, *Cleveland*
LEO ELOESSER, *San Francisco*
ROBERT E. GROSS, *Boston*
CAMERON HAIGHT, *Ann Arbor*
STUART W. HARRINGTON, *Rochester, Minn.*
JOHN C. JONES, *Los Angeles*
HIRAM T. LANGSTON, *Chicago*
HERBERT C. MAIER, *New York*
DONALD L. PAULSON, *Dallas*
DAVID C. SABISTON, JR., *Durham, N. C.*
PAUL C. SAMSON, *Oakland*

Advisory editorial board representing the Society of Thoracic Surgeons of Great Britain and Ireland LORD RUSSELL C. BROCK, *London*
SIR CLEMENT PRICE THOMAS, *London*

EVARTS A. GRAHAM, *Editor, 1931-1957*
EMILE HOLMAN, *Editor, 1957-1962*

Subject index*

A

Achalasia: dilatation or myotomy? (Clagett), 757 (Edit.)

Actinobacillus actinomycetemcomitans endarteritis, congenital fistula of right coronary artery to right ventricle complicated by (Symbas et al.), 379

Addict, narcotic, cardiac valve replacement for (Carey and Hughes), 663

Air in chest with CO_2 during open-heart surgery, effective method of replacing (Selman et al.), 618
embolism during open-heart surgery, modification of aortic needle-vent for prevention of (Carlson and Lillehei), 848
to pulmonary artery during insertion of transvenous endocardial pacemaker (Rotem et al.), 562

American Association for Thoracic Surgery: Program of 1967 Meeting, 453

Anastomosis, left atrial, in pulmonary reimplantation, role of (Benfield and Coon), 676

Aneurysm(s) of aorta due to giant cell aortitis (Kent and Arnold), 572
aortic, multiple, in twins with Marfan's syndrome: fatal rupture during pregnancy (Massumi et al.), 223
arteriovenous, pulmonary, bilateral, multiple, local extirpation of (Björk), 293
of pulmonary artery following a Potts' shunt operation (Stephens), 642
unusual, of root of aorta (Windsor and Shanahan), 830

"Anomalies," associated, physiologic explanation for: scimitar syndrome (Massumi et al.), 623

Anomaly(ies), intracardiac, complete correction of: tetralogy of Fallot associated with unusual developmental complex (Shea and Castaneda), 297
previously unknown, of coronary system: origin of anterior interventricular (descending) coronary artery and vein from left mammary vessels (Robicsek et al.), 602
vertebral, intralobar pulmonary sequestration and intralobar enteric sequestration associated with (Arcomano and Azzoni), 470

Antibiotics, prophylactic, infection following open-heart surgery with special reference to role of (Firor), 371

Antigen on survival of graft influence of quantity of: homotransplantation of lung (Zajtchuk et al.), 109

Aorta due to giant cell aortitis, aneurysm of (Kent and Arnold), 572
unusual aneurysms of root of (Windsor and Shanahan), 830

Aortic regurgitation, prognostic value of electrocardiographic and vectorcardiographic findings in surgery for (Eliot et al.), 634
Starr-Edwards valves, pitfall in postoperative evaluation of (Shabetai et al.), 288
valve(s), Aspergillus aortitis following replacement of (Leffert and Hackett), 866
heterograft, for human use (O'Brien), 392
homograft implanted into left atrium, replacement of mitral valve with (Hubka et al.), 260
valvular disease, resolution of functional mitral regurgitation following surgical correction of (Austen et al.), 255
surgery, complication of: iatrogenic aortico-right ventricular shunt (Jupa and Carleton), 531

Aortico-right ventricular shunt, iatrogenic: complication of aortic valvular surgery (Jupa and Carleton), 531

Aortoesophageal fistula complicating carcinoma of esophagus (Valtonen and Koivuniemi), 448

Aortitis, Aspergillus, following replacement of aortic valve (Leffert and Hackett), 866
giant cell, aneurysm of aorta due to (Kent and Arnold), 572

Aorto-intestinal fistula (Rosato et al.), 511

Arrhythmias, ventricular, postoperative, effect of small doses of potassium on (Selmonosky and Flege), 349

Arterial pressure monitoring, mercury embolization during (Berger et al.), 285

Artificial respiration on cardiovascular performance after open-heart surgery, influence of (Rawitscher et al.), 685

Aspergillus aortitis following replacement of aortic valve (Leffert and Hackett), 866

Atresia, esophageal, congenital, with tracheoesophageal fistula occurring in identical twins (Blank et al.), 192

Atrial myxoma, left (May et al.), 805
tumors, left, diagnostic and surgical aspects of (Thomas et al.), 535

*January, pp. 1-152; February, pp. 153-302; March, pp. 303-456; April, pp. 457-604; May, pp. 605-758; June, pp. 759-910.

Atrioplasty, combined use of tricuspid valve replacement, atrioventricular plication, and: Ebstein's anomaly (Timmis et al.), 385
Atrium, left, replacement of mitral valve with aortic valve homograft implanted into (Hubka et al.), 260
Augmentation, diastolic, on infarct size following coronary artery ligation, influence of (Nachlas and Siedband), 698
by intra-aortic balloon (Brown et al.), 789
Autografts, venous, and aortic homografts in canine intrathoracic venae cavae for periods up to 8 years, evaluation of (Sauvage and Gross), 549

B

Balloon, intra-aortic, diastolic augmentation by (Brown et al.), 789
Balloon-tipped catheter during pulmonary resection, occlusion of pulmonary artery with (Kovarik et al.), 412
Bank, valve, heterograft: collection, preservation, and insertion (O'Brien), 392
Biopsy, needle, percutaneous, of lung in cases of superior sulcus tumor (Siderys and Pittman), 716
Block, heart, experimental, in dogs, simple method of producing (Macdonald), 695
Blood flow, collateral, extracoronary in the ischemic canine heart, quantitative evaluation of (Criollos et al.), 657
pulmonary, regional, postoperative changes in (Bryant et al.), 64
regional, during dextran-induced normovolemic hemodilution in dog (Race et al.), 578
infused into myocardium, metabolic studies of (Smith et al.), 566
studies on maximal time limit for total occlusion of coronary circulation by determination of enzymatic activity level in (Sato et al.), 231
syndrome, homologous: pressure relationships and lymphatic studies (Hegarty and Stahl), 415
Board of Thoracic Surgery: Notice of examinations, 152, 302, 452, 601, 758
Bone presenting as Tietze's syndrome, malignant hemangioma-endothelioma of (Ruffolo and Connor), 467
Breathing, spontaneous and positive-pressure, of ambient air and pure oxygen at one atmosphere pressure on pulmonary surface characteristics, effects of (Lee et al.), 759
of 100 per cent oxygen at one atmosphere pressure, cardiovascular and metabolic responses to (Lee et al.), 770
Bronchogenic carcinoma, conservative resection in surgery for (Thompson), 159
empyema and survival following surgery for (Cady and Cliffton), 102
Bronchoscopy, ventilating (Hart et al.), 197
Bypass, cardiopulmonary, technique of pulmonary embolectomy with use of (Sautter et al.), 268
Bypass, cardiopulmonary—Cont'd
total, and myocardial contractility (Gourin et al.), 248

C

Calcification, annulus, severance of mitral prosthesis fixation sutures by (Danielson et al.), 858
Canine intrathoracic venae cavae for periods up to 8 years, evaluation of venous autografts and aortic homografts in (Sauvage and Gross), 549
Carcinoma, bronchogenic, conservative resection in surgery for (Thompson), 159
empyema and survival following surgery for (Cady and Cliffton), 102
esophageal, peptic ulceration and perforation of left colon bypass for (Holland), 733
of esophagus, aortoesophageal fistula complicating (Valtonen and Koivuniemi), 448
of lung, experience with palliative resection and irradiation therapy for (Gobbel et al.), 183
lung, in irradiated parabiotic rats (Goldenberg et al.), 441
locally advanced, with favorable prognosis (Silverberg et al.), 218
in a pharyngoesophageal diverticulum (Fischer and Bond), 500
squamous, of thoracic esophagus, results of radical surgery compared with radical radiotherapy in treatment of (Robertson et al.), 430
Cardiac echinococcosis, abnormal precordial pulsation in (Di Bello et al.), 366
output, low, following open-heart surgery, progressive hepatic and renal failure associated with (Mundth et al.), 275
valve replacement for narcotic addict (Carey and Hughes), 663
Cardiopulmonary bypass, technique of pulmonary embolectomy with use of (Sautter), 268
total, and myocardial contractility (Gourin et al.), 248
Cardiotomy and ventricular function (Benzing et al.), 303
Cardiovascular function, effects on: hemodilution and concomitant hyperbaric oxygenation (Dedichen et al.), 341
and metabolic responses to spontaneous and positive-pressure breathing of 100 per cent oxygen at one atmosphere pressure (Lee et al.), 770
performance after open-heart surgery, influence of artificial respiration on (Rawitscher et al.), 685
Catheter, balloon-tipped, during pulmonary resection, occlusion of pulmonary artery with (Kovarik et al.), 412
Chest with CO_2 during open-heart surgery, effective method of replacing air in (Selman et al.), 618
Children, functional evaluation of esophageal replacement in (Othersen and Clatworthy), 55
long-term results of valvuloplasty for mitral insufficiency in (Kahn et al.), 1

Chlorpromazine: adjunct to physiologic perfusion (Lemieux et al.), 425
Chronic mitral valvular obstruction, experimental production of (Vasko et al.), 875
Circulation, coronary, by determination of enzymatic activity level in blood, studies on maximal time limit for total occlusion of (Sato et al.), 231
effectiveness of various heart-lung machines in elimination of microbubbles from (Selman et al.), 613
Circulatory hemodynamics and treatment of severe, acute left ventricular failure in dogs: diastolic augmentation by intra-aortic balloon (Brown et al.), 789
CO_2 during open-heart surgery, effective method of replacing air in chest with (Selman et al.), 618
Colon bypass, left, for esophageal carcinoma, peptic ulceration and perforation of (Holland), 733
Combined operation of left internal mammary artery or right and left internal mammary implantations with epicardiectomy and free omental graft (Vineberg), 837
Commissurotomy, traumatic mitral incompetence after (Frater), 312
Congenital esophageal atresia with tracheoesophageal fistula occurring in identical twins (Blank et al.), 192
fistula of right coronary artery to right ventricle complicated by Actinobacillus actinomycetemcomitans endarteritis (Symbas et al.), 379
lesions of right heart, new perfusion technique for (Edwards and Clark), 527
mitral incompetence (Flege et al.), 138
stenosis (Tsuji et al.), 850
Congestive lesions, acute, of lung, cause of (Keller et al.), 743
Conservative resection in surgery for bronchiogenic carcinoma (Thompson), 159
Constrictive pericarditis, surgical management of (McPhail et al.), 360
Contractile "capacity" of myocardium, effect of hypothermia on (Badeer), 651
Contractility, myocardial, total cardiopulmonary bypass and (Gourin et al.), 248
Coronary artery ligation, influence of diastolic augmentation on infarct size following (Nachlas and Siedband), 698
occlusion, acute, ventricular fibrillation after (Pifarré et al.), 335
and vein, (descending) interventricular, anterior, from left mammary vessels, origin of (Robicsek et al.), 602
-right heart fistulas (Taber et al.), 84
surgery, direct, with endarterotomy and patch-graft reconstruction (Effer et al.), 93
Correction, surgical, of aortic valvular disease, resolution of functional mitral regurgitation following (Austen et al.), 255
Cusps, heart valve, transplantation of (Pritchard et al.), 322

D

Dextran, intra-arterial infusion of: concept to prevent sludging and thrombosis in vascular surgery (Fadhli), 496
-induced, normovolemic hemodilution in dog, regional blood flow during (Race et al.), 578
Diastolic augmentation on infarct size following coronary artery ligation, influence of (Nachlas and Siedband), 698
by intra-aortic balloon (Brown et al.), 789
Dilatation or myotomy?: achalasia (Clagett), 757 (Edit.)
Dissection, mammary artery, internal, unilateral self-retaining retractor for use in (Favaloro), 864
Diverticulum, pharyngoesophageal, carcinoma in (Fischer and Bond), 500

E

Ebstein's anomaly, surgical management of: combined use of tricuspid valve replacement, atrioventricular plication, and atrioplasty (Timmis et al.), 385
Echinococcosis, cardiac, abnormal precordial pulsation in (Di Bello et al.), 366
Editorial: Achalasia: dilatation or myotomy? (Clagett), 757
Electrocardiographic and vectorcardiographic findings in surgery for aortic regurgitation, prognostic value of (Eliot et al.), 634
Elimination of microbubbles from circulation, effectiveness of various heart-lung machines in (Selman et al.), 613
Embolectomy, pulmonary, for lethal emboli in dogs (Miller et al.), 477
analysis of 12 cases (Paneth), 77
with use of cardiopulmonary bypass, technique of (Sautter), 268
Emboli, lethal, in dogs, pulmonary embolectomy for (Miller et al.), 477
Embolism, air, during open-heart surgery, modification of aortic needle-vent for prevention of (Carlson and Lillehei), 848
to pulmonary artery during insertion of transvenous endocardial pacemaker (Rotem et al.), 562
Embolization, mercury, during arterial pressure monitoring (Berger et al.), 285
Emphysema, lobar, obstructive, of newborn infant (Murray et al.), 886
Empyema and survival following surgery for bronchogenic carcinoma (Cady and Cliffton), 102
Endarteritis, Actinobacillus actinomycetemcomitans, congenital fistula of right coronary artery to right ventricle complicated by (Symbas et al.), 379
Endarterotomy and patch-graft reconstruction, direct coronary artery surgery with (Effler et al.), 93

Endocardial radio-frequency pacemaker (Barr et al.), 668
Endocarditis: infection after open-heart surgery (Firor), 371
Endometriosis within thorax: metaplasia, implantation, or metastasis? (Yeh), 201
Endvenectomy and decompression in fibrosing mediastinitis causing obstruction of superior vena cava (Fadhli), 881
Enteric sequestration, intralobar, associated with vertebral anomalies, intralobar pulmonary sequestration and (Arcomano and Azzoni), 470
Enzymatic activity level in blood, studies on maximal time limit for total occlusion of coronary circulation by determination of (Sato et al.), 231
Epicardiectomy and free omental graft, technical considerations for combined operation of left internal mammary artery or right and left internal mammary implantations with (Vineberg), 837
  influence of: evaluation of extracoronary collateral blood flow in ischemic canine heart (Criollos et al.), 657
Esophageal atresia, congenital, with tracheoesophageal fistula occurring in identical twins (Blank et al.), 192
  carcinoma, peptic ulceration and perforation of left colon bypass for (Holland), 733
  reflux and hiatus hernia, surgical management of (Skinner and Belsey), 33
  replacement in children, functional evaluation of (Othersen and Clatworthy), 55
  stricture at anastomotic site following repair of tracheoesophageal fistula (Keshishian and Cox), 754
Esophagus, aortoesophageal fistula complicating carcinoma of (Valtonen and Koivuniemi), 448
  thoracic, results of radical surgery compared with radical radiotherapy in treatment of squamous carcinoma of (Robertson et al.), 430
Experimental heart block in dogs, simple method of producing (Macdonald), 695
Extirpation, local, of multiple bilateral pulmonary arteriovenous aneurysms (Björk), 293
Extracorporeal circulation, effect of various priming solutions upon red cell mass, plasma volume, and extracellular fluid volume of dogs following hemodilution technique of (Hara et al.), 353

F

Failure, hepatic and renal, progressive, associated with low cardiac output following open-heart surgery (Mundth et al.), 275
Fallot, tetralogy of, associated with unusual developmental complex (Shea and Castaneda), 297
Fibrillation, ventricular, after acute coronary artery occlusion (Pifarré et al.), 335
Fistula(s), aortoesophageal, complicating carcinoma of esophagus (Valtonen and Koivuniemi), 448
  aorto-intestinal (Rosato et al.), 511
  congenital, of right coronary artery to right ventricle complicated by Actinobacillus actinomycetemcomitans endarteritis (Symbas et al.), 379
  coronary artery-right heart (Taber et al.), 84
  tracheoesophageal, esophageal stricture at anastomotic site following repair of (Keshishian and Cox), 754
    occurring in identical twins, congenital esophageal atresia with (Blank et al.), 192
Fracture, ball, mechanical failure of Starr-Edwards aortic prosthesis due to (Newman et al.), 398

G

Gastroesophageal reflux and hiatal hernia (Urschel and Paulson), 21
GBH surfaces, stability of: studies with tritium-labeled heparin (Kramer et al.), 130
Gott-Daggett valve, intravascular hemolysis with (Schade et al.), 605
Graft, influence of quantity of antigen on survival of: homotransplantation of lung (Zajtchuk et al.), 109
  omental, free, technical considerations for combined operation of left internal mammary artery or right and left internal mammary implantations with epicardiectomy and (Vineberg), 837
Granulomas, tracheal, causing stenosis (Johnston et al.), 206
Graphite-benzalkonium-heparin surfaces, stability of (Kramer et al.), 130

H

Hamartoma of lung (Oldham et al.), 735
  malignant, of lung: fact or fiction? (Hayward and Carabasi), 457
Heart block, experimental, in dogs, simple method of producing (Macdonald), 695
  canine, ischemic, quantitative evaluation of extracoronary collateral blood flow in (Criollos et al.), 657
  diagnostic and surgical aspects of left atrial tumors of (Thomas et al.), 535
  right, new perfusion technique for congenital lesions of (Edwards and Clark), 527
  valve cusps, transplantation of (Pritchard et al.), 322
    replacement, total, in pediatric age groups (Van De Water et al.), 515
Heart-lung machine suitable for infant perfusion, evaluation of (Tarnay and Warden), 327
  various, in the elimination of microbubbles from the circulation, effectiveness of (Selman et al.), 613

Hemangioma-endothelioma, malignant, of bone presenting as Tietze's syndrome (Ruffolo and Connor), 467
Hemodilution and concomitant hyperbaric oxygenation (Dedichen et al.), 341
normovolemic, dextran-induced, in dog, regional blood flow during (Race et al.), 578
technique of extracorporeal circulation, effect of various priming solutions upon red cell mass, plasma volume, and extracellular fluid volume of dogs following (Hara et al.), 353
Hemodynamics, circulatory, and treatment of severe, acute left ventricular failure in dogs: diastolic augmentation by intra-aortic balloon (Brown et al.), 789
Hemolysis, intravascular, with Gott-Daggett valve (Schade et al.), 605
Heparin, tritum-labelled, studies with: stability of graphite-benzalkonium-heparin surfaces (Kramer et al.), 130
Hepatic and renal failure, progressive, associated with low cardiac output following open-heart surgery (Mundth et al.), 275
Hernia, hiatal, gastroesophageal reflux and (Urschel and Paulson), 21
hiatus, surgical management of esophageal reflux and (Skinner and Belsey), 33
Heterograft aortic valves for human use (O'Brien), 392
Heterografts and homografts, experimental comparison of: transplantation of heart valve cusps (Pritchard et al.), 322
Hiatal hernia, gastroesophageal reflux and (Urschel and Paulson), 21
Hiatus hernia, surgical management of esophageal reflux and (Skinner and Belsey), 33
Homograft(s), aortic valve, implanted into left atrium, replacement of mitral valve with (Hubka et al.), 260
aortic, and venous autografts in canine intrathoracic venae cavae for periods up to 8 years, evaluation of (Sauvage and Gross), 549
and heterografts, experimental comparison of: transplantation of heart valve cusps (Pritchard et al.), 322
Homologous blood syndrome: pressure relationship and lymphatic studies (Hegarty and Stahl), 415
Homotransplantation of lung (Zajtchuk et al.), 109
Hydatid cyst of lung and hydatid disease of liver with intrathoracic evolution, surgical treatment of (Crausaz et al.), 116
Hyperbaric conditions, performance of membrane oxygenator under (Lesage et al.), 153
oxygenation, concomitant, hemodilution and (Dedichen et al.), 341
Hypothermia on contractile "capacity" of myocardium, effect of (Badeer), 651

I

Iatrogenic aortico-right ventricular shunt: complication of aortic valvular surgery (Jupa and Carleton), 531
Implantation(s) of heterograft aortic valves (O'Brien), 392
internal mammary, right and left, with epicardiectomy and free omental graft, technical considerations for combined operation of left internal mammary artery or (Vineberg), 837
metaplasia, or metastasis?: endometriosis within thorax (Yeh), 201
retrograde internal mammary artery (Blesovsky et al.), 556
Incompetence, mitral, congenital (Flege et al.), 138
Infant perfusion, evaluation of heart-lung machine suitable for (Tarnay and Warden), 327
Infarct size following coronary artery ligation, influence of diastolic augmentation on (Nachlas and Siedband), 698
Infarction, myocardial, acute, role of controlled ventilation in treatment of (Pifarré et al.), 781
Infection following open-heart surgery, with special reference to role of prophylactic antibiotics (Firor), 371
Inferior vena cava replacement, experimental (Najafi et al.), 243
Infusion, intra-arterial, of dextran: concept to prevent sludging and thrombosis in vascular surgery (Fadhli et al.), 496
Injury of sinus node in open-heart operations (Tung et al.), 814
Intracardiac anomaly, complete correction of: tetralogy of Fallot associated with unusual developmental complex (Shea and Castaneda), 297
Intrathoracic evolution, surgical treatment of hydatid cyst of lung and hydatid disease of liver with (Crausaz), 116
Irradiated parabiotic rats, lung carcinomas in (Goldenberg et al.), 441
Irradiation therapy for carcinoma of lung, experience with palliative resection and (Gobbel et al.), 183

L

Lesions, congestive, acute, of lung, cause of (Keller et al.), 743
Lethal emboli in dogs, pulmonary embolectomy for (Miller et al.), 477
Ligation, coronary artery, influence of diastolic augmentation on infarct size following (Nachlas and Siedband), 698
Liver, hydatid disease of, with intrathoracic evolution, surgical treatment of hydatid cyst of lung and (Crausaz), 116
Lung in cases of superior sulcus tumor, percutaneous needle biopsy of (Siderys and Pittman) 716
carcinomas in irradiated parabiotic rats (Goldberg et al.), 441
carcinoma, locally advanced, with favorable prognosis (Silverberg et al.), 218
cause of acute congestive lesions of (Keller et al.), 743

Lung—Cont'd
experience with palliative resection and irradiation therapy for carcinoma of (Gobbel et al.), 183
hamartoma of (Oldham et al.), 735
homotransplantation of (Zajtchuk et al.), 109
and hydatid disease of liver with intrathoracic evolution, surgical treatment of hydatid cyst of (Crausaz), 116
lymphoma of (Hilbun and Chavez), 721
malignant hamartoma of: fact or fiction? (Hayward and Carabasi), 457
transplanted, in dog with use of xenon-133, measurement of function of (Pain et al.), 707
Lymphatic studies and pressure relationships: homologous blood syndrome (Hegarty and Stahl), 415
Lymphoepithelial tumors: tumors of thymus (Friedman), 163
Lymphoma(s) of lung (Hilbun and Chavez), 721
tumors of thymus (Friedman), 163

M

Mammary artery implantation, internal, retrograde (Blesovsky et al.), 556
internal, dissection, unilateral self-retaining retractor for use in (Favaloro), 864
left, or right and left internal mammary implantations with epicardiectomy and free omental graft, technical considerations for combined operation of (Vineberg), 837
Mammary vessels, left, origin of anterior interventricular (descending) coronary artery and vein from the (Robicsek et al.), 602
Marfan's syndrome, multiple aortic aneurysms in twins with: fatal rupture during pregnancy (Massumi et al.), 223
Mediastinitis, fibrosing, causing obstruction of superior vena cava, endevenectomy and decompression in (Fadhli), 881
Membrane oxygenator, rotating, experimental evaluation of (Ratan et al.), 519
under hyperbaric conditions, performance of (Lesage et al.), 153
Mercury embolization during arterial pressure monitoring (Berger et al.), 285
Metabolic and cardiovascular responses to spontaneous and positive-pressure breathing of 100 per cent oxygen at one atmosphere pressure (Lee et al.), 770
studies of blood infused into the myocardium (Smith et al.), 566
Metaplasia, implantation or metastasis?: endometriosis within thorax (Yeh), 201
Metastasis, metaplasia, or implantation?: endometriosis within thorax (Yeh), 201
Microbubbles from circulation, effectiveness of various heart-lung machines in elimination of (Selman et al.), 613
Mitral incompetence, congenital (Flege et al.), 138
traumatic (Frater), 312
insufficiency in children, long-term results of valvuloplasty for (Kahn et al.), 1
prosthesis fixation sutures by annulus calcification, severance of (Danielson et al.), 858
regurgitation, functional, following surgical correction of aortic valvular disease, resolution of (Austen et al.), 255
stenosis, congenital (Tsuji et al.), 850
during pregnancy, open-heart surgery for (Kozam et al.), 587
valve with aortic valve homograft implanted into left atrium, replacement of (Hubka et al.), 260
review of 65 consecutive cases of open-heart surgery on: postoperative respiratory care (Cooperman and Mann), 504
valvular obstruction, chronic, experimental production of (Vasko et al.), 875
Mucus plug syndrome with successful treatment by bronchotomy: obstructive lobar emphysema of newborn infant (Murray et al.), 886
Myasthenia gravis, further evaluation of thymectomy for (Buckberg et al.), 401
Myocardial contractility, total cardiopulmonary bypass and (Gourin et al.), 248
infarction, acute, role of controlled ventilation in treatment of (Pifarré et al.), 781
Myocardium, effect of hypothermia on contractile "capacity" of (Badeer), 651
metabolic studies of blood infused into (Smith et al.), 566
Myoid tumors: tumors of thymus (Friedman), 163
Myotomy, dilatation or?: achalasia (Clagett), 757 (Edit.)
Myxoma, atrial, left (May et al.), 805

N

Narcotic addict, cardiac valve replacement for (Carey and Hughes), 663
Needle biopsy, percutaneous, of lung in cases of superior sulcus tumor (Siderys and Pittman), 716
Needle-vent, aortic, for prevention of air embolism during open-heart surgery, useful modification of (Carlson and Lillehei), 848
Newborn infant, obstructive lobar emphysema of (Murray et al.), 886
Node, sinus, in open-heart operations, injury of (Tung et al.), 814

O

Obstruction of superior vena cava, endvenectomy and decompression in fibrosing mediastinitis causing (Fadhli), 881
valvular, mitral, chronic, experimental production of (Vasko et al.), 875
Occlusion, coronary artery, acute, ventricular fibrillation after (Pifarré et al.), 335
of pulmonary artery with balloon-tipped catheter during pulmonary resection (Kovarik et al.), 412

Occlusion—Cont'd
total, of coronary circulation by determination of enzymatic activity level in blood, studies on maximal time limit for (Sato et al.), 231
Omental graft, free, influence of: evaluation of extracoronary collateral blood flow in ischemic canine heart (Criollos et al.), 657
Open-heart operations, injury of sinus node in (Tung et al.), 814
surgery, effective method of replacing air in chest with CO_2 during (Selman et al.), 618
influence of artificial respiration on cardiovascular performance after (Rawitscher et al.), 685
for mitral stenosis during pregnancy Kozam et al.), 587
valve, review of 65 consecutive cases of: postoperative respiratory care (Cooperman and Mann), 504
modification of aortic needle-vent for prevention of air embolism during (Carlson and Lillehei), 848
during pregnancy (Mannix and Mahajan), 592
progressive hepatic and renal failure associated with low cardiac output following (Mundth et al.), 275
with special reference to role of prophylactic antibiotics, infection following (Firor), 371
Origin of anterior interventricular (descending) coronary artery and vein from left mammary vessels (Robicsek et al.), 602
Oxygenation, hyperbaric, concomitant, hemodilution and (Dedichen et al.), 341
Oxygenator, membrane, under hyperbaric conditions, performance of (Lesage et al.), 153
rotating, experimental evaluation of (Ratan et al.), 519

P

Pacemaker, endocardial, transvenous, air embolism to pulmonary artery during insertion of (Rotem et al.), 562
radio-frequency, endocardial (Barr et al.), 668
Pacing, synchronous, pervenous (Center and Castillo), 508
Palliative resection and irradiation therapy for carcinoma of lung, experience with (Gobbel et al.), 183
Parabiotic rats, irradiated, lung carcinomas in (Goldenberg et al.), 441
Parenchymal conditions, pulmonary, nontuberculous, predisposing to spontaneous pneumothorax (Dines et al.), 726
Patch-graft reconstruction, direct coronary artery surgery with endarterotomy and (Effler et al.), 93
Pediatric age group, total heart-valve replacement in (Van De Water et al.), 515
Peptic ulceration and perforation of left colon bypass for esophageal carcinoma (Holland), 733
Perforation and peptic ulceration of left colon bypass for esophageal carcinoma (Holland), 733
Perfusion, infant, evaluation of heart-lung machine suitable for (Tarnay and Warden), 327
physiologic, adjunct to: chlorpromazine (Lemieux et al.), 425
technique, new, for congenital lesions of right heart (Edwards and Clark), 527
Pericardiectomy: surgical management of constrictive pericarditis (McPhail et al.), 360
Pericarditis, constrictive, surgical management of (McPhail et al.), 360
Pervenous synchronous pacing (Center and Castillo), 508
Pharyngoesophageal diverticulum, carcinoma in (Fischer and Bond), 500
Physiological studies of left atrial myxoma (May et al.), 805
Plication, atrioventricular, and atrioplasty, combined use of tricuspid valve replacement: Ebstein's anomaly (Timmis et al.), 385
Pneumothorax, spontaneous, nontuberculous pulmonary parenchymal conditions predisposing to (Dines et al.), 726
Positive-pressure and spontaneous breathing of ambient air and pure oxygen at one atmosphere pressure on pulmonary surface characteristics, effects of (Lee et al.), 759
breathing of 100 per cent oxygen at one atmosphere pressure, cardiovascular and metabolic responses to (Lee et al.), 770
Postoperative changes in regional pulmonary blood flow (Bryant et al.), 64
Potassium on postoperative ventricular arrhythmias, effect of small doses of (Selmonosky and Flege), 349
Potts' shunt operation, aneurysm of pulmonary artery following (Stephens), 642
Precordial pulsation, abnormal, in cardiac echinococcosis (Di Bello et al.), 366
Pregnancy, fatal rupture during: multiple aortic aneurysms in twins with Marfan's syndrome (Massumi et al.), 223
open-heart surgery during (Mannix and Mahajan), 592
for mitral stenosis during (Kozam et al.), 587
Pressure monitoring, arterial, mercury embolization during (Berger et al.), 285
Priming solutions, various, effect on red cell mass, plasma volume, and extracellular fluid volume of dogs following hemodilution technique of extracorporeal circulation (Hara et al.), 353
Prognosis, favorable, locally advanced lung carcinoma with (Silverberg et al.), 218
Prognostic value of electrocardiographic and vectorcardiographic findings in surgery for aortic regurgitation (Eliot et al.), 634

Prosthesis, aortic, Starr-Edwards, due to ball fracture, mechanical failure of (Newman et al.), 398
Pulmonary arteriovenous aneurysms, bilateral, multiple, extirpation of (Björk), 293
artery during insertion of transvenous endocardial pacemaker, air embolism to (Rotem et al.), 562
following a Potts' shunt operation, aneurysm of (Stephens), 642
blood flow, regional, postoperative changes in (Bryant et al.), 64
embolectomy: analysis of 12 cases (Paneth), 77
for lethal emboli in dogs (Miller et al.), 477
with use of cardiopulmonary bypass, technique of (Sautter), 268
reimplantation, role of left atrial anastomosis in (Benfield, and Coon), 676
resection, occlusion of pulmonary artery with balloon-tipped catheter during (Kovarik et al.), 412
sequestration, intralobar, and intralobar enteric sequestration associated with vertebral anomalies (Arcomano and Azzoni), 470
surface characteristics, effects of spontaneous and positive-pressure breathing of ambient air and pure oxygen at one atmosphere pressure on (Lee et al.), 759
Pulsation, precordial, abnormal, in cardiac echinococcosis (Di Bello et al.), 366

R

Radio-frequency pacemaker, endocardial (Barr et al.), 668
Radiotherapy, radical, in treatment of squamous carcinoma of thoracic esophagus, results of radical surgery compared with: case for preoperative radiotherapy (Robertson et al.), 430
Reconstruction, patch-graft, direct coronary artery surgery with endarterotomy and (Effler et al.), 93
Reflux, gastroesophageal, and hiatal hernia (Urschel and Paulson), 21
esophageal and hiatus hernia, surgical management of (Skinner and Belsey), 33
Regional blood flow during dextran-induced normovolemic hemodilution in dog (Race et al.), 578
Regurgitation, aortic, prognostic value of electrocardiographic and vectorcardiographic findings in surgery for (Eliot et al.), 634
mitral, functional, following surgical correction of aortic valvular disease, resolution of (Austen et al.), 255
Reimplantation, pulmonary, role of left atrial anastomosis in (Benfield and Coon), 676
Renal complications associated with valve replacement surgery (Porter et al.), 145
and hepatic failure, progressive, associated with low cardiac output following open-heart surgery (Mundth et al.), 275
Replacement of aortic valve, Aspergillus aortitis following (Leffert and Hackett), 866
cardiac valve, for narcotic addict (Carey and Hughes), 663
esophageal, in children, functional evaluation of (Othersen and Clatworthy), 55
heart-valve, total, in pediatric age group (Van De Water et al.), 515
of mitral valve with aortic valve homograft implanted into left atrium (Hubka et al.), 260
surgery, valve, renal complications associated with (Porter et al.), 145
tricuspid valve, atrioventricular plication, and atrioplasty, combined use of: Ebstein's anomaly (Timmis et al.), 385
vena cava, inferior, experimental (Najafi et al.), 243
Resection, conservative, in surgery for bronchogenic carcinoma (Thompson), 159
palliative, and irradiation therapy for carcinoma of lung, experience with (Gobbel et al.), 183
Respiration, artificial, on cardiovascular performance after open-heart surgery, influence of (Rawitscher et al.), 685
Respiratory care, postoperative: review of 65 consecutive cases of open-heart surgery on mitral valve (Cooperman and Mann), 504
Retractor, self-retaining, unilateral, for use in internal mammary artery dissection (Favaloro), 864
Retrograde internal mammary artery implantation (Blesovsky et al.), 556
Root of aorta, unusual aneurysms of (Windsor and Shanahan), 830
Rotating membrane oxygenator, experimental evaluation of (Ratan et al.), 519
Rupture of aneurysm of pulmonary artery, report of a death from: aneurysm of pulmonary artery following Potts' shunt operation (Stephens), 642
fatal, of aneurysm in pregnant patient with Marfan's syndrome (Massumi et al.), 223

S

Scimitar syndrome: physiologic explanation for associated "anomalies" (Massumi et al.), 623
Sequestration, pulmonary and enteric, intralobar, associated with vertebral anomalies (Arcomano and Azzoni), 470
Severance of mitral prosthesis fixation sutures by annulus calcification (Danielson et al.), 858
Shunt, aortico-right ventricular, iatrogenic: complication of aortic valvular surgery (Jupa and Carleton), 531
Sinus node in open-heart operations, injury of (Tung et al.), 814
Sludging and thrombosis in vascular surgery, concept to prevent: intra-arterial infusion of dextran (Fadhli et al.), 496

Spontaneous pneumothorax, nontuberculous pulmonary parenchymal conditions predisposing to (Dines et al.), 726
Starr-Edwards aortic prosthesis due to ball fracture, mechanical failure of (Newman et al.), 398
valves, aortic, pitfall in postoperative evaluation of (Shabetai et al.), 288
Stenosis, mitral, congenital (Tsuji et al.), 850
tracheal, following tracheostomy (Johnston et al.), 206
Stricture, esophageal, at anastomotic site following repair of tracheoesophageal fistula (Keshishian and Cox), 754
Sulcus tumor, superior, percutaneous needle biopsy of lung in cases of (Siderys and Pittman), 716
Surface characteristics, pulmonary, effects of spontaneous and positive-pressure breathing of ambient air and pure oxygen at one atmosphere pressure on (Lee et al.), 759
Surgery, open-heart, during pregnancy (Mannix and Mahajan), 592
Survival following surgery for bronchogenic carcinoma, empyema and (Cady and Cliffton), 102
Sutures, fixation, mitral prosthesis, by annulus calcification, severance of (Danielson et al.), 858
Synchronous pacing, pervenous (Center and Castillo), 508
Syndrome, blood, homologous: pressure relationships and lymphatic studies (Hegarty and Stahl), 415
Marfan's, multiple aortic aneurysms in twins with (Massumi et al.), 223
mucus plug, with successful treatment by bronchotomy: obstructive lobar emphysema of newborn infant (Murray et al.), 886
scimitar: physiologic explanation for associated "anomalies" (Massumi et al.), 623
Tietze's, malignant hemangioma-endothelioma of bone presenting as (Ruffolo and Connor), 467

T

Teratoid tumors: tumors of thymus (Friedman), 163
Tetralogy of Fallot associated with unusual developmental complex (Shea and Castaneda), 297
Thorax, endometriosis within: metaplasia, implantation, or metastasis? (Yeh), 201
Thrombosis and sludging in vascular surgery, concept to prevent: intra-arterial infusion of dextran (Fadhli et al.), 496
Thymectomy for myasthenia gravis, further evaluation of (Buckberg et al.), 401
Thymus, tumors of (Friedman), 163
Tietze's syndrome, malignant hemangioma-endothelioma of bone presenting as (Ruffolo and Connor), 467
Tracheal stenosis following tracheostomy (Johnston et al.), 206
Tracheoesophageal fistula, esophageal stricture at anastomotic site following repair of (Keshishian and Cox), 754
Tracheostomy, tracheal stenosis following (Johnston et al.), 206
Transplanted lung in dog with use of xenon-133, measurement of function of (Pain et al.), 707
Transplantation of heart valve cusps (Pritchard et al.), 322
Traumatic mitral incompetence (Frater), 312
Tricuspid valve: surgical challenge (Grondin et al.), 7
Tritium-labelled heparin, studies with: stability of graphite-benzalkonium-heparin surfaces (Kramer et al.), 130
Tumors of thymus (Friedman), 163
atrial, left, diagnostic and surgical aspects of (Thomas et al.), 535
Twins, identical, congenital esophageal atresia with tracheoesophageal fistula occurring in (Blank et al.), 192

U

Ulceration, peptic, and perforation of left colon bypass for esophageal carcinoma (Holland), 733

V

Valve(s), aortic, Aspergillus aortitis following replacement of (Leffert and Hackett), 866
bank, techniques of measurement, and implantation: heterograft aortic valves for human use (O'Brien), 392
Gott-Daggett, intravascular hemolysis with (Schade et al.), 605
replacement, cardiac, for narcotic addict (Carey and Hughes), 663
surgery, renal complications associated with (Porter et al.), 145
Starr-Edwards, aortic, pitfall in postoperative evaluation of (Shabetai et al.), 288
tricuspid: surgical challenge (Grondin et al.), 7
Valvular disease, aortic, resolution of functional mitral regurgitation following surgical correction of (Austen et al.), 255
obstruction, mitral, chronic, experimental production of (Vasko et al.), 875
Valvuloplasty for mitral insufficiency in children, long-term results (Kahn et al.), 1
Vascular surgery, concept to prevent sludging and thrombosis in: intra-arterial infusion of dextran (Fadhli et al.), 496
Vectorcardiographic and electrocardiographic findings in surgery for aortic regurgitation, prognostic value of (Eliot et al.), 634
Vena cava, inferior, replacement, experimental (Najafi et al.), 243
superior, endvenectomy and decompression in fibrosing mediastinitis causing obstruction of (Fadhli), 881

Venae cavae, intrathoracic, canine, for periods up to 8 years, evaluation of venous autografts and aortic homografts in (Sauvage and Gross), 549
Ventilating bronchoscopy (Hart et al.), 197
Ventilation, controlled, in treatment of acute myocardial infarction, role of (Pifarré et al.), 781
Ventricular arrhythmias, postoperative, effect of small doses of potassium on (Selmonosky and Flege), 349
fibrillation after acute coronary artery occlusion (Pifarré et al.), 335
Ventricular—Cont'd
function, cardiotomy and (Benzing et al.), 303
Vertebral anomalies, intralobar pulmonary sequestration and intralobar enteric sequestration associated with (Arcomano and Azzoni), 470

X

Xenon-133, measurement of function of transplanted lung in dog with use of (Pain et al.), 707

The Journal of THORACIC AND CARDIOVASCULAR SURGERY

Official organ, The American Association for Thoracic Surgery

Editor BRIAN BLADES, *Washington, D. C.*

Associate editors THOMAS H. BURFORD, *St. Louis*
PAUL ADKINS, *Washington, D. C.*

Subject index*

A

Abnormalities of sinuses of Valsalva (De Bakey et al.), 312
Allotransplantation, experimental, of lung (Blumenstock et al.), 807
Alternans, ventricular, experimental, hemodynamic studies in (Cherian et al.), 30
American Association for Thoracic Surgery: Annual meeting notes, 153
  Honored Guest's Address (Björk), 161
  List of officers, councilors, and members, 1967-1968, 445
  Notice of 1968 Annual Meeting, 307, 443, 603, 759
  Presentation of chalice (Meyer), 309
  Presidental Address (Kergin), 155
Anastomosis, mammary artery-coronary artery, as method of treatment for angina pectoris (Kolessov), 535
Anesthesia with pentobarbital on hemodynamics and arterial blood gases in splenectomized dogs, effects of (Steiner and Calvin), 592
Aneurysm, coronary artery, intramural (Björk and Björk), 50
Angina pectoris, mammary artery—coronary artery anastomosis as method of treatment for (Kolessov), 535
Antigenicity of homologous aortic valve, studies of (Mohri et al.), 564
Announcement: 1968 Annual Meeting of the American Association for Thoracic Surgery, 307, 443, 603, 759
Anomalies, hypoplastic, arterial, infradiaphragmatic, surgical treatment of renovascular hypertension in children, with a review of (Nennhaus et al.), 246
Aorta, right atrium, and left atrium, traumatic communication between (McNalley and Sugg), 150
Aortic arch interruption: treatment with pulmonary artery banding (Hairston et al.), 60
  homograft valve replacement of mitral valve (Bigelow et al.), 438
  insufficiency due to active endocarditis, valve replacement in cases of (Kaiser et al.), 491
  valve(s) in calves, heterotransplantation of (Blundell et al.), 616
    fascia lata replacement of (Senning), 465
    homografts and heterografts, experimental use of immuno-suppression in (Kwong et al.), 199
      with metal rings, fixation of (Geha et al.), 605
      sterilized by electron beam energy, evaluation of (Malm et al.), 471
Aortic valve(s)—Cont'd
  homologous, in dogs, biologic study of (Mohri et al.), 622
    studies of antigenicity of (Mohri et al.), 564
  problem of insufficiency following homograft replacement of (Bigelow et al.), 478
  prostheses, significance of intermittent regurgitation in (Allen and Robertson), 549
  prosthesis, tricusp, semirigid, prefabricated (Hessel et al.), 227
  prosthetic, single plane fixation for (Wood and Sauvage), 90
  replacement, myocardial dysfunction following: significance of coronary artery disease (Linhart and Wheat), 259
    systemic embolization after (Fraser and Waddell), 81
Aorto-caval fistula, traumatic (Conn et al.), 880
Aortography, hemorrhagic pleural effusion secondary to (Bilbrey and Hedberg), 85
Arteries, coronary, Teflon embolism of (Gonzalez-Crussi et al.), 53
Arteriovenous fistula, systemic-pulmonary, of chest wall and lung (Kiphart et al.), 113
Artery, innominate, looped: importance of accurate diagnosis (Thomas), 719
Artificial heart device, clot formation inside (Nosé et al.), 697
Atresia, pulmonary artery, experimental, in fetal lamb: fetal cardiovascular surgery (Turney and Kennedy), 761
Atrial thrombosis, left, following, cardiac surgery (Bailey et al.), 876
Atrium(s), left, direct communication of pulmonary artery with (Aytac and Tuncali), 553
  right and left, traumatic communication between aorta and (McNalley and Sugg), 150
Augmentation, mechanical, of coronary circulation in ischemic heart (Rosensweig and Chatterjee), 839
Autogenous tissue, prevention of thrombus formation on rigid prosthetic heart valves by ingrowth of (Braunwald and Bonchek), 630
Autologous fascia lata, technique of mitral valve replacement with (Flege et al.), 222
Avulsion of innominate artery, surgical treatment of traumatic rupture or (Bosher and Freed), 732
Azathioprine, homotransplantation of mitral valve in dogs treated with (Pappas et al.), 1

B

Balloon tamponade, and acute coronary artery occlusion, cardiovascular responses to acute hemopericardium, compression by (Carey et al.), 65

*July, pp. 1-154; August, pp. 155-308; September, pp. 309-464; October, pp. 465-604; November, pp. 605-760; December, pp. 761-912.

Banding, pulmonary artery, treatment with: aortic arch interruption (Hairston et al.), 60
Biologic study of homologous aortic valve in dogs (Mohri et al.), 622
Blood pumping, prolonged, some hematologic aspects of (Replogle et al.), 688
Board of Thoracic Surgery: Notice of examinations, 152, 308, 444, 604, 760
Bronchial carcinoma, radiographically undemonstrable experience with cytologic detection, localization, and treatment of (Pearson et al.), 371
Bronchogenic carcinoma involving thoracic wall (Geha et al.), 394
long-term survival after surgical resection for (Jones et al.), 383
nonresectable, combination 5-fluorouracil and x-radiation therapy for (Killen et al.), 299
Bronchoscopy and esophagoscopy under neuroleptanalgesia with droperidol-fentanyl (Ferrari and Stephen), 143
Bypass, heart, left, in standardized experimental situation of acute heart failure, evaluation of (Small), 777

C

Calves, heterotransplantation of aortic valve in (Blundell et al.), 616
Carcinoma, bronchial, radiographically undemonstrable, experience with cytologic detection, localization, and treatment of (Pearson et al.), 371
bronchogenic, involving thoracic wall (Geha et al.), 394
long-term survival after surgical resection for (Jones et al.), 383
nonresectable, combination 5-fluorouracil and x-radiation therapy for (Killen et al.), 299
Carcinosarcoma of esophagus (Stener et al.), 746
Cardiac output with mechanical ventilation, depression of (Andersen and Kuchiba), 182
pacemakers, artificial, evaluation of function and failure of (Gerst et al.), 92
pacing by conversion to an epicardial system, successful restoration of: failure of endocardial pacemaker due to late myocardial perforation (Danielson et al.), 42
surgery, left atrial thrombosis following (Bailey et al.), 876
valve replacement, causes of early postoperative death following (Roberts and Morrow), 422
Cardiovascular needle holder (Johnson), 304
responses to acute hemopericardium, compression by balloon tamponade, and acute coronary artery occlusion (Carey et al.), 65
surgery, fetal (Turney and Kennedy), 761
Catheter, intercostal, secondary to insertion of: traumatic arteriovenous fistula of chest wall and lung (Cox et al.), 109
Cerebrospinal fluid pressure, effects of artificial ventilation on (Symbas et al.), 126
Causes of early postoperative death following cardiac valve replacement (Roberts and Morrow), 422
Chalice, the: presentation (Meyer), 309
Chemotherapy, surgery and/or irradiation and: treatment of lung metastases in children (Cliffton and Pool), 403
Chest injury, penetrating, in rural India (Jha and Sahi), 270
wall and lung, systemic-pulmonary arteriovenous fistula of (Kiphart et al.), 113
traumatic arteriovenous fistula of (Cox et al.), 109
Children, surgical treatment of renovascular hypertension in (Nennhaus et al.), 246
with combined therapy, treatment of lung metastases in (Cliffton and Pool), 403
Cholesterol type: chronic interstitial pneumonia (Padula and Stayman), 272
Circulation, coronary, in ischemic heart, mechanical augmentation of (Rosensweig and Chatterjee), 839
extracorporeal, contribution to in vitro testing of pumps for (Koller and Hawrylenko), 22
and hypothermia, comparison of effect of low molecular weight dextran on blood flow and peripheral resistance during (Bolooki et al.), 216
Circulatory assist pumps, implantation of (Filler et al.), 795
support, acute, by mechanical ventricular assistance following myocardial infarction, Skinner et al.), 785
Clot formation inside artificial heart device, (Nosé et al.), 697
Communication, direct, of pulmonary artery with left atrium (Aytac and Tuncali), 553
traumatic, between aorta, right atrium, and left atrium (McNalley and Sugg), 150
Complications of coronary artery perfusion (Ramsey et al.), 714
Coronary arteries, Teflon embolism of (Gonzalez-Crussi et al.), 53
artery aneurysm, intramural (Björk and Björk), 50
disease, significance of: myocardial dysfunction following aortic valve replacement (Linhart and Wheat), 259
perfusion, complications of (Ramsey et al.), 714
surgery, left, direct, employing retrograde perfusion of coronary sinus (Davies et al.), 848
occlusion, acute, local coronary A-V blood gas, carbohydrate, and enzyme gradients following (Timmis and Lehan), 856
sinus, direct left coronary artery surgery employing retrograde perfusion of (Davies et al.), 848

D

Death, postoperative, early, following cardiac valve replacement, causes of (Roberts and Morrow), 422
sudden, due to regurgitation of pedunculated esophageal lipoma (Allen and Talbot), 756
Delirium, post-cardiotomy, clinical neurological changes, and EEG abnormalities, relationship between (Sachdev et al.), 557
Development of pulmonary lesions during hemorrhagic shock, role of functional demand on (Willwerth et al.), 658
Dextran, low molecular weight, on blood flow and peripheral resistance during extracorporeal circulation and hypothermia, comparison of effect of (Bolooki et al.), 216

Diaphragmatic pacing in treatment of hypoventilation syndrome (Stemmer et al.), 649
Drainage, lymphatic, pulmonary (Baker et al.), 695
Droperidol-fentanyl, bronchoscopy and esophagoscopy under neuroleptanalgesia with (Ferrari and Stephen), 143
Ductus arteriosus, fetal, chronic hemodynamic effects of occluding (Haller et al.), 770

E

Edema, pulmonary, after Mustard operation for correction of complete transposition of great vessels, cause and treatment of (Clarke and Barratt-Boyes), 9
EEG abnormalities, relationship between postcardiotomy delirium, clinical neurological changes, and (Sachdev et al.), 557
Effusion, pleural, hemorrhagic, secondary to aortography (Bilbrey and Hedberg), 85
Electrocardiographic manifestation of standby pacing (Furman et al.), 723
Electrode(s), cardiac, implanted, chronically, for diagnostic, therapeutic, and investigational use in man (Harris et al.), 191
endocardial, permanent, myocardial perforation from (Meckstroth et al.), 16
Electron beam energy, evaluation of aortic valve homografts sterilized by (Malm et al.), 471
Embolism, Teflon, of coronary arteries (Gonzalez-Crussi et al.), 53
Embolization, systemic, after aortic valve replacement (Fraser and Waddell), 81
Endocardial electrode, permanent, myocardial perforation from (Meckstroth et al.), 16
pacemaker due to late myocardial perforation, failure of (Danielson et al.), 42
Endocarditis, active, valve replacement in cases of aortic insufficiency due to (Kaiser et al.), 481
Epileptogenic threshold of parenteral penicillin in dogs (Wyant and Dobell), 579
Esophageal lipoma, pedunculated, sudden death due to regurgitation of (Allen and Talbot), 756
motor function, canine, effect of ischemia of lower esophagus and esophagogastric junction on (Earlam et al.), 822
Esophagitis, reflux, experimental study of new operation for treatment of (Demos et al.), 832
Esophagobronchial fistula of 24 years' duration (Harris and deNiord), 295
Esophagoscopy and bronchoscopy under neuroleptanalgesia with droperidol-fentanyl (Ferrari and Stephen), 143
Esophagotracheal fistula, malignant, palliation for (Judd and Codd), 751
Esophagus, carcinosarcoma of (Stener et al.), 746
lower, and esophagogastric junction on canine esophageal motor function, effect of ischemia of (Earlam et al.), 822
Examinations: Board of Thoracic Surgery, 152, 308, 444, 603, 760
Experimental allotransplantation of lung (Blumenstock et al.), 807
Extracorporeal circulation, contribution to in vitro testing of pumps for (Koller and Hawrylenko), 22
Extracorporeal circulation—Cont'd
experimental, prolonged, fluid fluorocarbon as oxygenator in (Dundas et al.), 213
and hypothermia, comparison of effect of low molecular weight dextran on blood flow and peripheral resistance during (Bolooki et al.), 216

F

Failure, heart, acute, evaluation of left heart bypass in standardized experimental situation of (Small), 777
Fallot, tetralogy of, myocardial sarcoidosis and complete repair of (Tice et al.), 573
Fascia lata, autologous, technique of mitral valve replacement with (Flege et al.), 222
replacement of aortic valves (Senning), 465
Fentanyl-droperidol, bronchoscopy and esophagoscopy under neuroleptanalgesia with (Ferrari and Stephen), 143
Fetal cardiovascular surgery (Turney and Kennedy), 761
ductus arteriosus, chronic hemodynamic effects of occluding (Haller et al.), 770
Fistula, aorto-caval, traumatic (Conn et al.), 880
arteriovenous, systemic-pulmonary, of chest wall and lung (Kiphart et al.), 113
traumatic, of chest wall and lung (Cox et al.), 109
esophagobronchial, of 24 years' duration (Harris and deNiord), 295
esophagotracheal, malignant, palliation for (Judd and Codd), 751
Fixation of aortic valve homografts with metal rings (Geha et al.), 605
single plane, for prosthetic aortic valves (Wood and Sauvage), 90
Fluorocarbon, fluid, as an oxygenator in prolonged experimental extracorporeal circulation (Dundas et al.), 213
5-Fluorouracil and x-radiation therapy for nonresectable bronchogenic carcinoma (Killen et al.), 299
Formation, clot, inside artificial heart device (Nosé et al.), 697

G

Gases, blood, arterial, in splenectomized dogs, effects of anesthesia with pentobarbital on hemodynamics and (Steiner and Calvin), 592
Gastric duplication, mediastinal, leading to pneumonectomy (Page and Bigelow), 291
Graft(s), free, of internal mammary artery, revascularization of posterior myocardium by means of (Blesovsky et al.), 103
prosthetic, arterial, method to prevent torsion of (Belin and Griffen), 49
Granuloma, mediastinal (Sakulsky et al.), 279

H

Heart device, artificial, clot formation inside (Nosé et al.), 697
failure, acute, evaluation of left heart bypass in standardized experimental situation of (Small), 777
ischemic, mechanical augmentation of coronary circulation in (Rosensweig and Chatterjee), 839

Heart—Cont'd
valves, prosthetic, rigid, by ingrowth of autogenous tissue, prevention of thrombus formation on (Braunwald and Bonchek), 630
Hematologic aspects of prolonged blood pumping (Replogle et al.), 688
Hemodynamic effects, chronic, of occluding the fetal ductus arteriosus (Haller et al.), 770
studies in experimental ventricular alternans (Cherian et al.), 30
Hemodynamics and arterial blood gases in splenectomized dogs, effects of anesthesia with pentobarbital on (Steiner and Calvin), 592
Hemopericardium, acute, compression by balloon tamponade, and acute coronary artery occlusion, cardiovascular responses to (Carey et al.) 65
Hemorrhage, massive, in pulmonary tuberculosis, treatment of (Yeoh et al.), 503
Hemorrhagic pleural effusion secondary to aortography (Bilbrey and Hedberg), 85
shock, role of functional demand on development of pulmonary lesions during (Willwerth et al.), 658
study of acute and chronic respiratory pathophysiology of (Henry et al.), 666
Heterografts and homografts, valve, aortic, experimental use of immuno-suppression in (Kwong et al.), 199
Heterotransplantation of aortic valve in calves (Blundell et al.), 616
Homograft(s), aortic, valve replacement of mitral valve (Bigelow et al.), 438
valve, sterilized by electron beam energy, evaluation of (Malm et al.), 471
and heterografts, valve, aortic, experimental use of immuno-suppression in (Kwong et al.), 199
replacement of aortic valve, problem of insufficiency following (Bigelow et al.), 478
valve, aortic, with metal rings, fixation of (Geha et al.), 605
Homologous aortic valve in dogs, biologic study of (Mohri et al.), 622
studies of antigenicity of (Mohri et al.), 564
Homotransplantation of mitral valve in dogs treated with azathioprine (Pappas et al.), 1
Honored Guest's Address: Safety factors in open-heart surgery (Björk), 161
Hospital wound infection in thoracotomies, incidence of (Nelson and Nelson), 586
Hypertension, renovascular, in children, with a review of infradiaphragmatic arterial hypoplastic anomalies, surgical treatment of (Nennhaus et al.), 246
Hypothermia and extracorporeal circulation, comparison of effect of low molecular weight dextran on blood flow and peripheral resistance during (Bolooki et al.), 216
Hypoventilation syndrome, diaphragmatic pacing in treatment of (Stemmer et al.), 649

I

Immuno-suppression in aortic valve homografts and heterografts, experimental use of (Kwong et al.), 199
Implant procedures, internal mammary artery, myocardial revascularization by (Favaloro et al.), 359
Implantable left ventricular-aortic assist device (Filler et al.), 795
Implantation, splenic artery, relief of posterior myocardial ischemia by (Gardner et al.), 867
Implanted cardiac electrodes, chronically, for diagnostic, therapeutic, and investigational use in man (Harris et al.), 191
pacemakers, report of 5-year experience with (Gerst et al.), 92
India, rural, penetrating chest injury in (Jha and Sahi), 270
Infarction, myocardial, acute circulatory support by mechanical ventricular assistance following (Skinner et al.), 785
Infection, wound, hospital, in thoracotomies, incidence of (Nelson and Nelson), 586
Ingrowth of autogenous tissue, prevention of thrombus formation on rigid prosthetic heart valves by (Braunwald and Bonchek), 630
Innominate artery, looped: importance of accurate diagnosis (Thomas), 719
surgical treatment of traumatic rupture or avulsion of (Bosher and Freed), 732
Insufficiency, aortic, due to active endocarditis, valve replacement in cases of (Kaiser et al.), 491
following homograft replacement of aortic valve, problem of (Bigelow et al.), 478
Interruption, aortic arch: treatment with pulmonary artery banding (Hairston et al.), 60
Interstitial pneumonia, chronic: cholesterol type (Padula and Stayman), 272
In vitro testing of pumps for extracorporeal circulation, contribution to (Koller and Hawrylenko), 22
Irradiation and chemotherapy, surgery and/or: treatment of lung metastases in children (Cliffton and Pool), 403
Ischemia of lower esophagus and esophagogastric junction on canine esophageal motor function, effect of (Earlam et al.), 822
myocardial, posterior, by splenic artery implantation, relief of (Gardner et al.), 867
Ischemic heart, mechanical augmentation of coronary circulation in (Rosensweig and Chatterjee), 839

L

Laser energy, pulsed, in management of multiple pulmonary metastases (Minton et al.), 707
Left ventricular-aortic assist device, implantable (Filler et al.), 795
Lipoma, esophageal, pedunculated, sudden death due to regurgitation of (Allen and Talbot), 756
Lobectomy, upper, left, segmental resection of pulmonary artery during (Gundersen), 582
Looped innominate artery: importance of accurate diagnosis (Thomas), 719
Lung and chest wall, systemic-pulmonary arteriovenous fistula of (Kiphart et al.), 113
traumatic arteriovenous fistula of (Cox et al.), 109
experimental allotransplantation of (Blumenstock et al.), 807

Lung—Cont'd
metastases in children with combined therapy, treatment of (Cliffton and Pool), 403
regression of intrinsic nerves and other sequelae with reimplantation of (Nigro et al.), 815
scanning, radioactive, in diagnosis and management of pulmonary disorders (Jones et al.), 520
retrograde: contribution to study of collateral systemic flow to lung (Massumi et al.), 132
Lymphatic drainage, pulmonary (Baker et al.), 695

M

Malignant esophagotracheal fistula, palliation for (Judd and Codd), 751
Mammary artery implant procedures, internal, myocardial revascularization by (Favaloro et al.), 359
internal, revascularization of posterior myocardium by means of free graft of (Blesovsky et al.), 103
Management of recurrent pectus excavatum (Keshishian and Cox), 740
Mechanical augmentation of coronary circulation in ischemic heart (Rosensweig and Chatterjee), 839
ventricular assistance following myocardial infarction, acute circulatory support by (Skinner et al.), 785
Mediastinal granuloma (Sakulsky et al.), 279
gastric duplication leading to pneumonectomy (Page and Bigelow), 291
Menstruation, recurring spontaneous pneumothorax associated with (Crutcher et al.), 599
Metastases, lung, in children with combined therapy, treatment of (Cliffton and Pool), 403
pulmonary, multiple, pulsed laser energy in management of (Minton et al.), 707
Mitral valve, aortic homograft valve replacement of (Bigelow et al.), 438
in dogs treated with azathioprine, homotransplantation of (Pappas et al.), 1
replacement (Starr et al.), 333
with autologous fascia lata, technique of (Flege et al.), 222
Motor function, esophageal, canine, effect of ischemia of lower esophagus and esophagogastric junction on (Earlam et al.), 822
Muscular subaortic stenosis in dogs, production of (Burford et al.), 639
Mustard operation for correction of complete transposition of great vessels, cause and treatment of pulmonary edema after (Clarke and Barratt-Boyes), 9
Myocardial dysfunction following aortic valve replacement: significance of coronary artery disease (Linhart and Wheat), 259
infarction, acute circulatory support by mechanical ventricular assistance following (Skinner et al.), 785
ischemia, posterior, by splenic artery implantation, relief of (Gardner et al.), 867
perforation, late, failure of endocardial pacemaker due to (Danielson et al.), 42
from permanent endocardial electrode (Meckstroth et al.), 16
Myocardial—Cont'd
revascularization, indirect, preliminary, local coronary A-V blood gas, carbohydrate, and enzyme gradients following acute coronary occlusion before and after selective elimination of (Timmis and Lehan), 856
by internal mammary artery implant procedures (Favaloro et al.), 359
sarcoidosis and complete repair of tetralogy of Fallot (Tice et al.), 573
Myocardium, posterior, by means of free graft of internal mammary artery, revascularization of (Blesovsky et al.), 103

N

Needleholder, cardiovascular (Johnson), 304
Nerves, intrinsic, and other sequelae with reimplantation of the lung, regression of (Nigro et al.), 815
Neuroleptanalgesia with droperidol-fentanyl, bronchoscopy and esophagoscopy under (Ferrari and Stephen), 143
Neurological changes, clinical, EEG abnormalities, and post-cardiotomy delirium, relationship between (Sachdev et al.), 557

O

Occlusion, coronary, acute, local coronary A-V blood gas, carbohydrate and enzyme gradients following (Timmis and Lehan), 856
artery, acute, cardiovascular responses to acute hemopericardium, compression by balloon tamponade, and (Carey et al.), 65
Open-heart surgery, safety factors in: Honored guest's address (Björk), 161
Operation, new, for treatment of reflux esophagitis, experimental study of (Demos et al.), 832
Output, cardiac, with mechanical ventilation, depression of (Andersen and Kuchiba), 182
Oxygenator in prolonged experimental extracorporeal circulation, fluid fluorocarbon as (Dundas et al.), 213

P

Pacemaker(s), cardiac, artificial, evaluation of function and failure of (Gerst et al.), 92
endocardial, due to late myocardial perforation, failure of (Danielson et al.), 42
Pacing, diaphragmatic, in treatment of hypoventilation syndrome (Stemmer et al.), 649
failure, technique for diagnosing and correcting the cause of (Gerst et al.), 92
intracardiac, percutaneous, through subclavian vein (Mobin-Uddin et al.), 545
standby, electrocardiographic manifestation of (Furman et al.), 723
Palliation for malignant esophagotracheal fistula (Judd and Codd), 751
Parenteral penicillin in dogs, epileptogenic threshold of (Wyant and Dobell), 579
Pathogenesis of postcardiotomy syndrome (Kahn et al.), 682
Pathophysiology, respiratory, acute and chronic, of hemorrhagic shock, study of (Henry et al.), 666

Pectus excavatum, recurrent, management of (Keshishian and Cox), 740
Pedunculated esophageal lipoma, sudden death due to regurgitation of (Allen and Talbot), 756
Penetrating chest injury in rural India (Jha and Sahi), 270
Penicillin, parenteral, in dogs, epileptogenic threshold of (Wyant and Dobell), 579
Pentobarbital on hemodynamics and arterial blood gases in splenectomized dogs, effects of anesthesia with (Steiner and Calvin), 592
Percutaneous intracardiac pacing through subclavian vein (Mobin-Uddin et al.), 545
Perforation, myocardial, late, failure of endocardial pacemaker due to (Danielson et al.), 42
from permanent endocardial electrode (Meckstroth et al.), 16
Perfusion(s), coronary artery, complications of (Ramsey et al.), 714
paired, observations from series of: some hematologic aspects of prolonged blood pumping (Replogle et al.), 688
retrograde, of coronary sinus, direct left coronary artery surgery employing (Davies et al.), 848
Pleural tuberculosis (Langston et al.), 511
Pneumonectomy, mediastinal gastric duplication leading to (Page and Bigelow), 291
Pneumonia, interstitial, chronic: cholesterol type (Padula and Stayman), 272
Pneumothorax, spontaneous, recurring, associated with menstruation (Crutcher et al.), 599
Postcardiotomy syndrome, pathogenesis of (Kahn et al.), 682
Prefabricated semirigid tricusp aortic valve prosthesis (Hessel et al.), 227
Presentation: The chalice (Meyer), 309
Presidential address: Retrospect and prospect (Kergin), 155
Pressure, cerebrospinal fluid, effects of artificial ventilation on (Symbas et al.), 126
Production of muscular subaortic stenosis in dogs (Burford et al.), 639
Prostheses, aortic valve, significance of intermittent regurgitation in (Allen and Robertson), 549
Prosthesis, aortic valve, tricusp, semirigid, prefabricated (Hessel et al.), 227
Prosthetic aortic valves, single plane fixation for (Wood and Sauvage), 90
grafts, arterial method to prevent torsion of (Belin and Griffen), 49
heart valves, rigid, by ingrowth of autogenous tissue, prevention of thrombus formation on (Braunwald and Bonchek), 630
Pulmonary artery atresia, experimental, in fetal lamb: fetal cardiovascular surgery (Turney and Kennedy), 761
banding, treatment with: aortic arch interruption (Hairston et al.), 60
during left upper lobectomy, segmental resection of (Gundersen), 582
with left atrium, direct communication of (Aytac and Tuncali), 553
disorders, radioactive lung scanning in diagnosis and management of (Jones et al.), 520
lesions during hemorrhagic shock, role of functional demand on development of (Willwerth et al.), 658
lymphatic drainage (Baker et al.), 695
metastases, multiple, pulsed laser energy in management of (Minton et al.), 707
Pulmonary—Cont'd
sequestration (Golding et al.), 121
tuberculosis, treatment of massive hemorrhage in (Yeoh et al.), 503
vascular resistance on right ventricular function, effects of alterations in (Abel and Waldhausen), 886
Pulsed laser energy in management of multiple pulmonary mestastases (Minton et al.), 707
Pumping, blood, prolonged, some hematologic aspects of (Replogle et al.), 688
Pumps for extracorporeal circulation, contribution to in vitro testing of (Koller and Hawrylenko), 22

R

Radioactive lung scanning in diagnosis and management of pulmonary disorders (Jones et al.), 520
Radiographically undemonstrable bronchial carcinoma, experience with cytologic detection, localization, and treatment of (Pearson et al.), 371
Recurrent pectus excavatum, management of (Keshishian and Cox), 740
Recurring spontaneous pneumothorax associated with menstruation (Crutcher et al.), 599
Reflux esophagitis, experimental study of new operation for treatment of (Demos et al.), 832
Regression of intrinsic nerves and other sequelae with reimplantation of the lung (Nigro et al.), 815
Reimplantation of the lung, regression of intrinsic nerves and other sequelae with (Nigro et al.), 815
Regurgitation, intermittent, in aortic valve prostheses, significance of (Allen and Robertson), 549
of pedunculated esophageal lipoma, sudden death due to (Allen and Talbot), 756
Renovascular hypertension in children, with a review of infradiaphragmatic arterial hypoplastic anomalies, surgical treatment of (Nennhaus et al.), 246
Replacement, valve, aortic, myocardial dysfunction following: significance of coronary artery disease (Linhart and Wheat), 259
systemic embolization after (Fraser and Waddell), 81
cardiac valve, causes of early postoperative death following (Roberts and Morrow), 422
fascia lata, of aortic valves (Senning), 465
homograft, of aortic valve, problem of insufficiency following (Bigelow et al.), 478
mitral valve (Starr et al.), 333
with autologous fascia lata, technique of (Flege et al.), 222
valve, in cases of aortic insufficiency due to active endocarditis (Kaiser et al.), 491
homograft, aortic, of mitral valve (Bigelow et al.), 438
Resection, segmental, of pulmonary artery during left upper lobectomy (Gundersen), 582
surgical, for bronchogenic carcinoma, long-term survival after (Jones et al.), 383
Respiratory pathophysiology, acute and chronic, of hemorrhagic shock, study of (Henry et al.), 666

Retrograde lung scanning (Massumi et al.), 132
perfusion of coronary sinus, direct left coronary artery surgery employing (Davies et al.), 848
Retrospect and prospect (Kergin), 155
Revascularization, myocardial, indirect, preliminary, local coronary A-V blood gas, carbohydrate, and enzyme gradients following acute coronary occlusion before and after selective elimination of (Timmis and Lehan), 856
by internal mammary artery implant procedures (Favaloro et al.), 359
of posterior myocardium by means of free graft of internal mammary artery, (Blesovsky et al.), 103
Rings, metal, fixation of aortic valve homografts with (Geha et al.), 605
Rupture, traumatic, or avulsion of innominate artery, surgical treatment of (Bosher and Freed), 732

S

Safety factors in open-heart surgery: Honored guest's address (Björk), 161
Sarcoidosis, myocardial, and complete repair of tetralogy of Fallot (Tice et al.), 573
Scanning, lung, radioactive, in diagnosis and management of pulmonary disorders (Jones et al.), 520
retrograde: contribution to study of collateral systemic flow to lung (Massumi et al.), 132
Segmental resection of pulmonary artery during left upper lobectomy (Gundersen), 582
Sequestration, pulmonary (Golding et al.), 121
Shock, hemorrhagic, role of functional demand on development of pulmonary lesions during (Willwerth et al.), 658
study of acute and chronic respiratory pathophysiology of (Henry et al.), 666
Splenectomized dogs, effects of anesthesia with pentobarbital on hemodynamics and arterial blood gases in (Steiner and Calvin), 592
Splenic artery implantation, relief of posterior myocardial ischemia by (Gardner et al.), 867
Spontaneous pneumothorax, recurring, associated with menstruation (Crutcher et al.), 599
Standby pacing, electrocardiographic manifestation of (Furman et al.), 723
Steal syndrome, coronary artery: intramural coronary artery aneurysm (Björk and Björk), 50
Stenosis, subaortic, muscular, in dogs, production of (Burford et al.), 639
Sterilization of aortic valve homografts by electron beam energy (Malm et al.), 471
Subclavian vein, percutaneous intracardiac pacing through (Mobin-Uddin et al.), 545
Survival, long-term, after surgical resection for bronchogenic carcinoma (Jones et al.), 383
Syndrome, hypoventilation, diaphragmatic pacing in treatment of (Stemmer et al.), 649
postcardiotomy, pathogenesis of (Kahn et al.), 682
steal, coronary artery: intramural coronary artery aneurysm (Björk and Björk), 50
Systemic flow, collateral, to lung, contribution to study of: retrograde lung scanning (Massumi et al.), 132

T

Teflon embolism of coronary arteries (Gonzalez-Crussi et al.), 53
Testing, in vitro, of pumps for extracorporeal circulation, contribution to (Koller and Hawrylenko), 22
Tetralogy of Fallot, myocardial sarcoidosis and complete repair of (Tice et al.), 573
Thoracic wall, bronchogenic carcinoma involving (Geha et al.), 394
Thoracotomies, incidence of hospital wound infection in (Nelson and Nelson), 586
Threshold, epileptogenic, of parenteral penicillin in dogs (Wyant and Dobell), 579
Thrombosis, atrial, left, following cardiac surgery (Bailey et al.), 876
Thrombus formation on rigid prosthetic heart valves by ingrowth of autogenous tissue, prevention of (Braunwald and Bonchek), 630
Torsion of arterial prosthetic grafts, method to prevent (Belin and Griffen), 49
Transposition, complete, of great vessels, cause and treatment of pulmonary edema after Mustard operation for correction of (Clarke and Barratt-Boyes), 9
Traumatic aorto-caval fistula (Conn et al.), 880
arteriovenous fistula of chest wall and lung (Cox et al.), 109
communication between aorta, right atrium, and left atrium (McNalley and Sugg), 150
rupture or avulsion of innominate artery, surgical treatment of (Bosher and Freed), 732
Tuberculosis, pleural (Langston et al.), 511
pulmonary, treatment of massive hemorrhage in (Yeoh et al.), 503

V

Valsalva, abnormalities of sinuses of (De Bakey et al.), 312
Valve, aortic, in calves, heterotransplantation of (Blundell et al.), 616
homologous, in dogs, biologic study of (Mohri et al.), 622
prosthetic, single plane fixation for (Wood and Sauvage), 90
mitral, in dogs treated with azathioprine, homotransplantation of (Pappas et al.), 1
replacement (Starr et al.), 333
replacement, aortic, systemic embolization after (Fraser and Waddell), 81
Vascular resistance, pulmonary, on right ventricular function, effects of alterations in (Abel and Waldhausen), 886
Ventilation, artificial, on cerebrospinal fluid pressure, effects of (Symbas et al.), 126
assisted, positive-negative, intermittent positive, comparative studies of: depression of cardiac output with mechanical ventilation (Andersen and Kuchiba), 182
mechanical, depression of cardiac output with (Andersen and Kuchiba), 182
alternans, experimental, hemodynamic studies in (Cherian et al.), 30

Ventricular—Cont'd
function, right, effects of alterations in pulmonary vascular resistance on (Abel and Waldhausen), 886
(left)-aortic assist device, implantable (Filler et al.), 795

W

Wall, thoracic, bronchogenic carcinoma involving (Geha et al.), 394
Wall—Cont'd
chest, and lung, systemic-pulmonary arteriovenous fistula of (Kiphart et al.), 113
traumatic arteriovenous fistula of (Cox et al.), 109

X

X-radiation therapy for nonresectable bronchogenic carcinoma, combination 5-fluorouracil and (Killen et al.), 299
